

U.S. ARMY

Corpus Christi Army Depot

NAVFAC Industry Day

- **Powertrain Facility—Seven phase MILCON engine & powertrain repair facility**
 - Phase 1 & 2 complete
 - Phase 3 nearing completion
 - Phase 5 & 6 in design
- Repair or Replace Five Hangars
 - Hangar 47 repair in progress
 - Hangars 43 – 46 to be repaired or replaced
- Refurbish Main Plant
 - Demolish and replace ~2/3 of existing 1.7M SF facility for airframe repair
- Total efforts include ~\$350M in SRM and MILCON in FYs 24-26, with additional projects planned through FY30
- To be successful, requires close partnership of Government with contractors to rapidly address unforeseen conditions, and meet Required Beneficial Occupancy Date
